FIBRE CHEMISTRY
Volume 36, Numbers 1-6, 2004
(A translation of *Khimicheskie Volokna*)

Volume 36, Number 1, January-February, 2004

World Production of Textile Raw Materials in 2002 – E. M. Aizenshtein 1 3

TEXTILE - 2003

Synthesis of New Derivatives of Polycaproamide Graft Copolymers Containing 2-(4-Aminophenyl)Quinoline-4-Carboxylic Acid Fragments – T. V. Druzhinina, N. N. Kondrashova, and M.-G.A. Shvekhgeimer 7 8

Thermal Stabilization of Polycaproamide Composites Containing Flame Retardants – E. V. Dudnik, N. S. Zubkova, K. I. Kobrakov, and V. I. Kelarev 12 11

Thermal Modification and Study of the Structure of Chitosan Films – M. A. Zotkin, G. A. Vikhoreva, T. V. Smotrina, and M. A. Derbenev 16 14

Characteristics of the Decrease in the Combustibility of Polypropylene with Multicomponent Flame Retardant Systems – Yu. S. Antonov, V. A. Matveev, N. S. Zubkova, and N. G. Butylkina 21 19

Fabrication of Carbon Fibre Materials Made from Polyvinyl Alcohol Fibre Impregnated with Phosphorus Compounds – E. Yu. Savel'eva, T. V. Druzhinina, and I. M. Kharchenko 26 22

Fabrication of Antimicrobial Viscose Materials with Antiadhesive Properties – M. A. Chapurina, L. V. Redina, T. N. Yudanova, K. P. Khomyakov, T. A. Cherdyntseva, and A. I. Netrusov 30 25

Sorption of Heavy Metals by Polyamide Chemisorption Fibre – E. V. Abaldueva and T. V. Druzhinina 33 28

Comparative Effectiveness of Use of Fluorine-Containing Polymer Modifiers to Reduce the Wettability of Viscose Fibres – L. S. Sletkina, L. V. Redina, N. V. Kolokolkina, G. N. Savosina, and I. V. Vedeneeva 37 31

Use of Azo Compounds from Colored Plant Products for Dyeing Fabrics Made of Synthetic Fibres – K. I. Kobrakov, O. Yu. Glyadyaeva, G. S. Stankevich, and L. G. Kovtun 41 34

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Fluoropolymer Fibres: Physicochemical Nature and Structural Dependence of Their Unique Properties, Fabrication, and Use. A Review – K. E. Perepelkin 43 39

Copolyamides with Low Melting Points for Articles in Light Industry – V. I. Besshaposhnikova, S. E. Artemenko, and I. G. Polushenko 59 51

Effect of Biologically Active Polymer Compounds on the Supramolecular Structure of Polyvinyl Alcohol Films – T. N. Yudanova, E. Yu. Aleshina, E. S. Obolonkova, I. I. Dubovik, and L. S. Gal'braikh 62 54

MATERIALS SCIENCE

The Importance of Long-Term Observations in Assessing the Strength of Polycaproamide Fibre – A. K. Kuznetsov, Yu. M. Bazarov, A. S. Belikov, and N. V. Kuleshova 67 58

Effect of Electrochemical Treatment on the Absorption Capacity of Carbon Fabrics – A. V. Skolunov, L. K. Borisova, and M. E. Kazakov 71 61
Thermostable Textile Materials for Aircraft Emergency Evacuation Equipment – K. M. Kirin, G. A. Budnitskii, and V. A. Nikishin 75 64

MATHEMATICAL MODELING OF PROCESSES
Comparative Analysis of the Kinetics of Drying of Disperse Polymers Using Mathematical Models – M. V. Stupa, V. I. Stupa, E. K. Platonov, and V. T. Mikhailov 80 68

Volume 36, Number 2, March-April, 2004

The Synthetic Fibre and Fibre Raw Material World Market in the Second Half of 2003 – E. M. Aizenshtein and E. V. Kalitova 85 3

TEXTILE - 2003
Air Texturing of Arselon Thread – S. S. Medvetskii, D. B. Ryklin, and A. G. Kogan 101 16
Optimization of Processing of Twisted Arselon Yarn – D. V. Mazurik and V. A. Rodionov 104 18
Development of Optimum Parameters for Manufacture of Oxalon Sewing Thread – V. A. Rodionov, E. S. Lavrova, and S. N. Skvortsov 106 20
Selection of Optimum Process Parameters for Manufacture of Polypropylene Sewing Thread – M. V. Sakhnik and V. A. Rodionov 109 22
Spinning Glass and Basalt Fibres – L. I. Koroteeva, A. P. Yaskin, and V. I. Glushenkov 112 25

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Peroxide Cellulose — New Raw Material for Chemical Processing – R. Z. Pen, A. V. Byvshev, I. L. Shapiro, O. A. Kolmakova, and A. A. Polyutov 116 28
Effect of Aging of Polycaproamide Crumb on the Quality of Vidlon Textile Fibre – N. P. Gankov 119 31

MATERIALS SCIENCE
Effect of the Supramolecular Structure of Modified Fibre Materials on Their Biological Activity – T. N. Yudanova, E. S. Obolonkova, T. A. Cherdyntseva, A. I. Netrusov, and L. S. Gal'braikh 122 34
Nonwoven Material with Low Density and High Mechanical Strength – A. V. Dedov 126 37
Comparative Analysis of the Properties of Some Materials — Absorbers of Oil and Petroleum Products – A. A. Lysenko, D. G. Galunov, and L. V. Shvagurtseva 129 39
Textile Auxiliaries in Production of Aramid Fibres and Articles Made from Them – M. P. Mikhailova, G. B. Sklyarova, I. V. Slugin, and O. V. Kartasheva 133 42

FIBRE COMPOSITES
Optical Properties of Carbon-Containing Film Composites – I. P. Dobrovol'skaya, B. M. Tarakanov, T. Yu. Vereshchaka, I. G. Rumynskaya, and Z. Yu. Chereiskii 136 45
Study of the Thickness of Polymer Adsorption Layers on the Fibre Surface – I. S. Rodzivilova, G. P. Ovchinnikova, S. E. Artemenko, and T. G. Dmitrienko 139 47

MACHINES AND EQUIPMENT
Upgrading of Electrical Equipment on Machines for Manufacture of Chemical Fibres and Yarns – V. N. Tarasov and V. M. Simkin 141 49

REGENERATION AND INDUSTRIAL ECOLOGY
Selection of Methods of Industrial Wastewater Treatment – L. L. Zhuravleva, S. E. Artemenko, and T. P. Ustinova 156 61

CONGRATULATIONS ON YOUR BIRTHDAY! 160 69

Volume 36 , Number 3, May - June, 2004

Renewable Plant Resources and Processed Products in Chemical Fibre Production – K. E. Perepelkin. 161 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Production and Heat Treatment of Yarn from Copolyamide Based on Poly-(P-Phenyiene Terephthalamide) – A. N. Gladkov, V. N. Malyshev, A. N. Malyshev, L. S. Gal'braikh, and L. I. Savchenko 177 16
Description of Manufacture of a Chemisorption Fibre from Polycaproamide Graft Copolymers – M. A. Struganova, T. V. Druzhinina, and G. I. Efremov 181 19

MATERIALS SCIENCE
Effect of the Composition of Nonwoven Material on its Sorption Characteristics – A. V. Dedov 184 21
Modification of the Physicomechanical Properties of Polycaproamide Fibres by Exposure to Ultrahigh-Frequency Electromagnetic Vibrations – M. Yu. Morozova and S. G. Kalganova 186 23
Composition and Properties of Biodegradable Materials – M. Yu. Ustinov, S. E. Artemenko, G. P. Ovchinnikova, G. A. Vikhoreva, and A. N. Guzenko 189 25
Regulation of the Structure of Coked Foams by Incorporation of Metal-Containing Carbon Nanostructures in Swellable Fireproofing Coatings – S. G. Shuklin, A. A. Didik, S. G. Bystrov, A. A. Kuznetsov, and V. I. Kodolov 193 28
Intumescent Coatings and the Processes that Take Place in Them –S. G. Shuklin, V. I. Kodolov, and E. N. Klimenko 200 33

MACHINES AND EQUIPMENT
Equipment for Preparation of High-Viscosity Polycaproamide for Processing into Composite Materials – E. K. Platonov, M. V. Stupa, and V. I. Stupa 206 38
Mixing of Polymers with Twin Screws – V. I. Yankov, E. V. Slavnov, and S. I. Urzhuntseva 211 42

MATHEMATICAL MODELING AND METHODS OF INVESTIGATION
Automatic Identification of the Parameters of Heat Plants – D. A. Shurygin 222 50
Diffraction Method of Measuring the Structural Characteristics of Fabrics Made of Chemical Fibres – G. P. Meshcheryakova and B. M. Tarakanov 227 52

REGENERATION AND INDUSTRIAL ECOLOGY
Uv Spectroscopy in Monitoring of Biological Treatment of Washing Waters from Aromatic Polyamide Fibre Production – A. G. Venediktova 232 56

Volume 36, Number 4, July-August, 2004

Theory of Extremal Mechanical and Thermal Properties of Fibres and Needle Crystals. Comparison with Experimental Data – K. E. Perepelkin 237 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Anomalous Viscosity of Solutions of Polysulfone in Dimethylacetamide – A. V. Bil'dyukevich and L. A. Fen'ko 249 12

MATERIALS SCIENCE

Principles of Creation of Fireproof Materials Containing Nanostructures – V. I. Kodolov, A. M. Lipanov, and S. G. Shuklin 252 15

Air Drag of Needle–Punch Filter Material – A. V. Dedov 260 21

Effect of the Textile Structure of Polyacrylonitrile Fibres on Formation of a Three–Dimensional Polymer Matrix Network in "Polikon" Materials – N. B. Fedorchenko and M. M. Kardash 263 24

Sorption Activity of Different Chemisorption Fibres with Respect to Organic Dyes – T. V. Druzhinina, N. N. Furman, L. A. Nazar'ina, E. V. Abaldueva, and D. P. Plotnikov 267 27

Optimization of Twisting Parameters in Production of Sewing Thread Made from Synthetic High–Modulus Complex Fibres – L. N. Vitukhina and N. N. Zakharova 274 33

PHYSICAL CHEMISTRY OF FIBRE–FORMING POLYMERS

Spectral Study of the State of Dyes in Chemical Fibres – N. P. Zarubina, L. K. Zavadskaya, and F. Yu. Telegin 278 36

Effect of the Environment, Charge, Chemical Structure, and Size of an Azo Dye on Its Energy and Optical Properties – V. A. Rakitina and I. A. Abronin 283 39

Quantum–Chemical Study of the Electron Structure and Spectroscopic Properties of Phenylbenzimidazole and Its Derivatives – I. A. Abronin, V. A. Rakitina, I. V. Slugin, and M. V. Shablygin 288 42

METROLOGY

Development and Use of Industrial Measuring Instruments on Process Equipment – I. D. Pupyshev, A. A. Chepushtanov, and A. B. Polevoi 292 46

MATHEMATICAL MODELING AND METHODS OF INVESTIGATION

Implementation of the Results of Mathematical Modeling of Orientation of Polypropylene Fibre – A. V. Biryukov, S. E. Artemenko, V. P. Biryukov, and V. V. Sotnikov 297 50

Theory and Calculation of Spinning of Polymer Fibres and Filaments (Stationary System) – V. V. Kiselev, G. I. Fridman, and S. F. Ermolaeva 303 54

Volume 35, Number 6, September-October, 2004

Prices of Petrochemical Feedstock and Synthetic Fibres and Filaments in the First Half of 2004 – E. M. Aizenshtein and E. V. Kalitova 311 3

VII INTERNATIONAL SEMINAR ON THE PHYSICS OF FIBRE MATERIALS — SMARTEX 2004 – A. K. Izgorodin 329 19

The Problem of Orientation Strengthening of Polycaproamide Fibres – A. K. Kuznetsov and L. N. Mizerovskii 330 20
Vacuum-Plasma and Plasma-Solution Modification of Macromolecular Compounds. Potentials and Limitations – A. I. Maksimov 333 22
Effect of Humic Acid Microadditives on the Properties of Starch Hydrogels and Films Made from Them – I. Yu. Vashurina, N. E. Kochkina, and Yu. A. Kalinnikov 338 26
Study of the Possible Use of Intermediate Flax as Raw Material for Production of Cellulose – A. K. Izgorodin, Yu. V. Konoplev, A. G. Zakharov, A. N. Prusov, M. I. Voronova, and I. Volkova 343 30

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
New Polyamide Chemisorption Fibres Containing Aromatic and Heterocyclic Compound Units – T. V. Druzhinina, I. B. Zhigalov, M. A. Struganova, G. I. Efremov, and K. I. Kobrakov 348 34
Effect of Spinning Conditions on the Structure of Vidlon Polycaproamide Textile Fibres – N. P. Gankov 354 37
Experimental Study of the Structure of Polyacrylonitrile Gel Fibres – I. A. Budkute, B. E. Geller, and L. A. Shcherbina 358 40

MATERIALS SCIENCE
Comparative Evaluation of the Thermal Properties of Aromatic Fibres (Polyoxazole, Polyimide, and Polyaramid) – K. E. Perepelkin, O. B. Malan'ina, E. A. Pakshver, and R. A. Makarova 365 45
Characteristics of Thermooxidative Decomposition of Cotton and Polyester Blends – O. S. Dutikova, Yu. V. Strekalova, N. S. Zubkova, N. G. Butylkina, N. I. Konstantinova, and Yu. K. Naganovskii 370 49
Use of Chemical Fibre Manufacturing Wastes for Modification of Petroleum Paving Asphalts – D. V. Chechulin, I. A. Ionov, S. E. Artemenko, and S. V. Arzamastsev 374 52

PHYSICAL CHEMISTRY OF FIBRE-FORMING POLYMERS
Electrostatic Charge of Filamentary Material – I. D. Pupyshev and O. I. Kolerova 379 56

METROLOGY
Metrological Requirements for Methods of Experimental Evaluation of the Quality of Measurements under Standard 5725 – A. F. Vasil'ev and M. M. Shablygin. 383 59
Role of Intermediate Precision Indexes in Evaluation of the Quality of Measurements – A. F. Vasil'ev and M. M. Shablygin 387 62

Volume 36, Number 6, November-December, 2004

IVANOVO SCHOOL OF POLYMER CHEMISTRY - 75 YEARS – L. N. Mizerovskii 391 3

Kinetics of Alkaline Delignification of Flax Fibre – S. N. Petrova, I. Yu. Volkova, A. G. Zakharov 393 5
Effect of Melt Structure and Monomer Ratio on Condensation Equilibrium Parameters in Copolycondensation of 4-Acetoxybenzoic and 6-Acetoxy-2-Naphthoic Acids – L. N. Mizerovskii and L. V. Khanzutina 396 7
Kinetics of Solid-Phase Prepolycondensation of Demonomerized Polycaproamide – L. N. Mizerovskii and I. N. Smirnov 402 11
Changes in the Structure of Flax Cellulose Induced by Solutions of Lithium, Sodium, and Potassium Hydroxides – M. I. Voronova, S. N. Petrova, T. N. Lebedeva, O. N. Ivanova, A. N. Prusov, and A. G. Zakharov 408 15

The Modifying Effect of Ammonium Nitrate and Sodium Hydroxide on Poly(Ethylene Terephthalate) Materials – N. P. Prorokova and S. Yu. Vavilova 413 19
Effect of Solvation Processes on the Diffusion Permeability of Cellulose and Poly(Ethylene Terephthalate) for Dyes – A. V. Baranov 416 22
Thermochemistry of Dissolution and Separation of Polymers from Solution – A. N. Prusov and S. M. Prusova 421 25
X-Ray Diffraction Method of Determining the Degree of Crystallinity of Cellulose Materials of Different Anisotropy – A. E. Zavadskii 425 28
Low-Temperature Plasma as The Basis for Creation of Modern Textile Chemical Technologies – L. V. Sharnina 431 32
Technologies for Biochemical Synthesis and Modification of Chemical Fibres – A. V. Cheshkova 437 37
Theoretical and Technological Aspects of Removal of Large Amounts of Organic Liquids from Capillary-Porous Bodies. I. Mechanism of the Process – K. V. Pochivalov and L. N. Mizerovskii 442 41
Theoretical and Technological Aspects of Removal of Large Amounts of Organic Liquids from Capillary-Porous Bodies. II. Kinetics – K. V. Pochivalov and L. N. Mizerovskii 447 45
Theoretical and Technological Aspects of Removal of Large Amounts of Organic Liquids from Capillary-Porous Bodies. III. Mathematical Model of the Process – K. V. Pochivalov and L. N. Mizerovskii 452 49
Effect of Chemical Fibres on The Structure of Cottonized-Fibre-Containing Yarn – V. G. Stokozenko, A. B. Shaposhnikov, S. M. Gubina 458 53
Effect of Dampening on the Supramolecular Structure of Cotton Cellulose – N. A. Yakunin and A. E. Zavadskii 463 57

WORLD CHEMICAL FIBRE AND THREAD PRODUCTION IN 2003 – E. M. Aizenshtein 467 60
